

EIDER

The Eider platform is wholly owned and operated by TAQA Bratani Limited. It is a fixed steel legged platform at a water depth of 158m which began production in November 1988. Eider entered late life utility mode operation in 2019 & now no longer has hydrocarbon processing facilities. The platform provides utility support to the Otter subsea field which is routed to North Cormorant.

About TAQA

TAQA's UK business (TAQA Bratani Limited) is a wholly owned subsidiary of the Abu Dhabi National Energy Company PJSC (TAQA).

Established in 2005, TAQA is a diversified utilities and energy group headquartered in Abu Dhabi, the capital of the United Arab Emirates, and is listed on the Abu Dhabi Securities Exchange (ADX: TAQA). TAQA has significant investments in power and water generation, transmission and distribution assets, as well as upstream and midstream oil and gas operations. The company's assets are in the United Arab Emirates as well as Canada, Ghana, India, Iraq, Morocco, Oman, the Netherlands, Saudi Arabia, the United Kingdom and the United States.
